

Blatant Advertising...

- IPv6 operational coordination mailing list is needed
- `ipv6-wg@ripe.net` is “RIPE only”
- 6bone mailing list is “going away” (and “experimental”)
- new mailing list created: **`ipv6-ops@lists.cluenet.de`**
- “This list is a forum for people who are actually deploying IPv6 in the Internet. It’s focus is on OPERATIONAL issues (especially BGP routing) and development of the production IPv6 Internet cloud.”
- lots of vendors, large network ops, etc. on the list
- <http://lists.cluenet.de/mailman/listinfo/ipv6-ops/>
